JEWELLERY SECTOR IN TURKEY

The jewellery sector holds a place in the cultural heritage of Turkey, with her history of more than 5,000 years. Being fostered by the many civilizations such as Lydian, Hittite, Macedonian, Greek, Roman, and Ottoman that existed in the country, the craft of jewellery has been regarded as among the most eminent occupations down through the ages. It is in a transformation process, from being an artisanship to becoming an industry opened to the world after the government's regulation in the beginning of the 80s. Today, the Turkish Jewellery and Valuables sector turns out to be one of the prominent sectors globally. Over 1,000 large factories, which are equipped with state-of-the-art technology and employ more than 1,000

sta each, are in service in Turkey. Approximately 350,000 people are employed by over 4,000 producers in 40,000 retail stores in the sector.

Huge manufacturing capacity; Kuyumcukent

The Turkish Jewellery and Valuables sector has been an arbiter in the export market since 1980. The number of member exporter companies of the Jewellery Exporters' Association is almost 1,000 as of today. Kuyumcukent, one of the most distinguished production compounds in the world, fosters more than 1,000 producers in one site and employs 20,000 people. The company whose production capacity is the largest in Europe is located in Turkey.

Increase in exports continues

Export transactions of the Turkish Jewellery and Valuables sector exceeded \$3 billion in the year 2014. The sector's export figures increase steadily each year. While the export figure was \$200 million in 1998, today it has grown to \$3 billion, as official records indicate, and this figure comes close to \$5 billion when shopping by tourists and shuttle trading are included. Turkey is the second-largest gold jewellery producer in the world, after Italy. More than 90% of the sector's exports are derived from the category of gold jewellery.

A great opportunity in stone jewellery

Although the biggest part of Turkey's exports is in the category of

gold, the potential could not be utilized in stone jewellery because of the tax policy enforced for years. However, Turkey has now attracted attention in the category of gems as well when the 20% tax on the import of precious stones was removed in the year 2014.

Borsa Istanbul's membership opened up to foreign companies

Sectoral regulations enforced in Turkey conform to global standards. The Precious Metals and Diamond Markets founded under the organizational format of Borsa Istanbul have been launched. Turkey has a stock exchange market in service that is run by international standards.

New stone center: Turkey

With the exemption of tax from precious stones' import, Turkey's ability to use her advantages becomes possible. It is foreseen that Turkey is going to be the world's new stone center because of advantages over Israel and Belgium. Strong demand in the domestic market Gold ranks first among the most important investment instruments for the Turkish people. According to World Gold Council reports, total household gold investments, which are called "mattress savings" in Turkey, are approximately 3,500 tons (\$145 billion). A \$10 billion portion of the "mattress savings" was brought into the economy after the government took steps with regulations on the banking system.

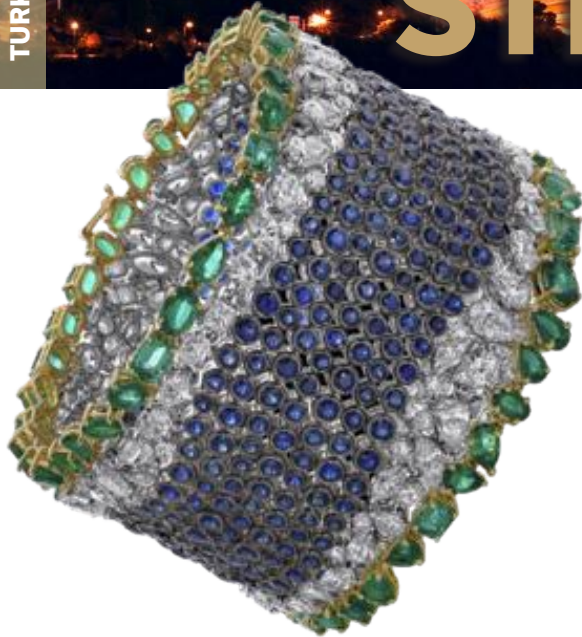

Demand for stone jewellery on an upward trend

Although the Turkish people's demand for gold is for investment purposes, the demand for stone jewellery is also on an upward trend. With the increase in people's educational level, growth in the urban population, and women's participation in the workforce, the demand for stone jewellery has helped growth rise 10% each year in the domestic market.

Turkey's Strengths

"Visa easements" Turkey is a country whose visa regulations are flexible. Strict visa regulations applicable in Europe or Israel are not an issue in our country. Whichever country you are from, you can gain access into Turkey very easily.

TURKEY'S STRENGTHS

“VISA EASEMENTS”

Turkey is a country whose visa regulations are exible. Strict visa regulations applicable in Europe or Israel are not an issue in our country. Whichever country you are from, you can gain access into Turkey very easily.

“ACCESSIBILITY”

Turkey’s location allows you to reach the most important markets of the world in a couple of hours. You can easily access Europe, North Africa, the Middle East, and the prominent parts

■ ISTANBUL, GRANDBAZAAR

“EASY TERMS OF INCORPORATION”

Trade regulations applied in Turkey do not put any strain on foreigners regarding incorporation. You can establish and launch your company in one day in Turkey. You do not have to be a partner of a company based in Dubai. Furthermore, in accordance with the reciprocity law in Turkey, there is no obstruction to the purchasing of real estate.

“THE LARGEST MOUNTING JEWELRY INVENTORY IN THE WORLD”

Anatolia has 5,000 years of jewellery culture. Together with this fact, our state-of-the-art giant factories manufacture to international standards. We rank third in gold manufacturing, worldwide. We are also assertive in the assembly of stone jewellery. Turkey is in the position of being the most assertive country in the world from the aspect of rough jewellery inventory ownership.

“AIMING TO BE THE CENTER OF THE REGION IN TRADE AND STONE-CUTTING”

Working in collaboration with colleges, we are graduating students skilled in precious stone-cutting. Classes are being offered in the Jewellery Engineering Department of Istanbul Commerce University. At the same time, a stone-cutting workshop and laboratory have been launched at the university. Turkey is going to be one of the most prominent centers of the world in the stone-cutting field.

“LBMA RENIERIES”

Three London Bullion Market Association—certified gold reneries are in service in Turkey. It is planned for that number to reach five with new reneries scheduled to open. Turkey has turned out to be the biggest gold transformation center in the region. A significant amount of gold from the Middle East, Europe, Western Asia, and North Africa has been refined in Turkey.

Actively offering services in the jewelry sector for 40 years, ACARIN Jewelry, with the knowledge and experience it acquired throughout the years, is carrying the ACARIN brand to future generations. Working in 18, 21, and 22 carat groups in bracelets category, ACARIN is able to transmit its products to its numerous sales points in Elazığ, İstanbul, Ankara, Antalya, Eskişehir, İzmit, Adana, Konya, Gaziantep, Şanlıurfa, Adıyaman, Osmaniye, Mersin, Kahramanmaraş, Bingöl, Tunceli, Malatya and Batman.

Founded in 1975 as a retailer company, ACARIN Jewelry enhanced its area of activity in 1990 and went to the fields of manufacturing and wholesale, alongside with retail dealing. The company, with the ACARIN brand, holds an important market share today and is counted among the most prominent companies in the sector, both with its product range, and its modern and high quality manufacturing. ACARIN Jewelry offers its products under control of TSI and ISO-9001 Certification and with a knowledge and experience of over 40 years, and always holds quality and customer satisfaction at the uppermost importance.

Closely following the global trends with its specialized team, and manufacturing its designs within its own structure, ACARIN aims to carry its success it acquired in Turkey as a bracelets company, to overseas.

Ceaselessly continuing its sustainable growth since 1984, Ahlatcı Jewelry is deemed one of the leading firms in Turkish wedding ring and bracelet markets. By closely following the Turkish sector with its active marketing teams, and quickly and accurately meeting the demands, Ahlatcı Jewelry, with its product range and professionalism, is ranked among the most important brands in the sector and expands its brand beyond the borders of Turkey, to international level.

Ahlatcı Jewelry exports its products to countries including Portugal, Spain, the USA, Canada, Egypt, Germany, and particularly, Dubai, and offers service by continuously following the demands, demographic structure and the economic profile of the importing countries. Also contributing to the employment by enhancing its brand day after day, the firm is counted among the leaders of the Turkish wedding ring and bracelet markets.

CATEGORIES

Precious stones, semi precious stones, syntetic.

Starting to operate in the organization of Altınbaş Holding in 2004, Alstone became one of the most important solution partners & suppliers of sector manufacturers with its wide product range and reliability in a very short time.

Since that time, with its strong background & service quality, Alstone contributes to manufacturers for improving their imaginations and vision. Fantasy shaped diamonds like princess, drop, oval, marquise and spherical diamonds between D-J colour from 0,003 to 1,00 carat mostly take place in the stocks of Alstone. Alstone presents certificated diamonds suitable to Kimberley process in the world's most prestigious laboratuaries as GIA and HRD for the products that have over 1,00 carat length.

Alstone manufactures the diamonds in the suitable style to customer satisfaction at the production unit of suppliers with the latest technological sensitive control. To be able to provide quality and optimum efficiency in price index to its customers, Alstone presents these jewels produced in major centers of the world as Belgium, Dubai & Israel and classifies them by eliminating with accuracy. Alstone will continue to support the sector manufacturers at this path that always requires being innovative and competition.

We have kept our belief in entrepreneurship and our innovative and creative perspective since the day of our foundation. Our company, Altınbaş Jewelry, the flagship of Altınbaş Holding, is the most important evidence of this vision of ours. In the 80's, when the world was still unaware of the existence of a Turkish jewelry sector, we, Altınbaş Jewelry, stepped into the international arena with the vision of becoming a global actor. We told the world about the existence of this sector in Turkey and its highly promising potential! We proved it with our performance! Today, we look at a Turkey that has become a prominent center for the international jewelry sector, and we take pride in Altınbaş brand being an important contributor to this advancement. As Altınbaş Jewelry, we aimed, in all our activities, first and foremost for the advancement of the Turkish jewelry sector. As we grow, we wanted our sector to grow and strengthen with us. In our over 60 years of history, we've put our name under numerous innovations which represent milestones in our sector. Focusing on our thematic, conceptual designs which combine traditional values with modernism, we continue to hold our ground as the leading company in our sector. We have also determined our goals for the year 2023, the centennial of our republic. In a manner that would contribute to the export target of 500 billion dollars our country hopes to achieve, Altınbaş Jewelry, with a customer oriented attitude and sizable R&D investments, will be offering services at 1000 convenient locations. We take our strength from our constant growth and tireless efforts. We always take productivity as an essential element. Our main goal is to contribute both to Turkey and the Turkish people. In every project we initiate, every activity we carry out, we act in a manner that would enhance our country's well-being. As the only Turkish jewelry brand in The World Jewellery Confederation, we successfully continue our operations by having deemed one of the most important actors in the world jewelry sector, with the progress we have made not just in the field of manufacturing, also in design, branding, marketing, service, after sales support and distribution.

Gold Jewelry

The story begins with two brothers and a small jeweler's bench in Bodrum, Turkey. Back then, neither could have imaged that their unique designs would captivate so many. Nearly two decades later Ara Collection is known worldwide for its handcrafted 24 karat gold jewelry.

In 2002 Ara Collection expanded to the US, opening their first retail store in Santa Barbara, California. Over the next few years Ara continued to grow. The collection now graces over 200 jewelry stores nationwide, as well as Canada, Mexico, Brazil, Bermuda and Puerto Rico.

Ara Collection takes pride in its quality and workmanship. Each piece is created by hand in a small workshop in Turkey. Inspiration for the collection comes from the rich history of ancient Anatolian Civilizations and the beauty of the Mediterranean and Aegean Sea. In Bodrum Turkey.

Ararat Jewellery is a gold & diamond jewellery producer. Where everyone's contribution is essential in creating jewels of great value and unrivaled richness of composition. Our models stand out for their original designs, which can truly withstand the taste of modern fashion. We produce 18 carat gold with diamonds and also with precious stones. We think luxury is being confident of wearing a jewel immune to the passing of time, reliable in shape, perfect for those who want to be part of a symbolic experience that goes well beyond aesthetics. Our way of thinking and acting has consolidated into an actual philosophy that allow us to achieve the quality level we believe our customers deserve.

Ariş having experience for more than hundred years, is one of the leading diamond jewellery companies of Turkey. Since its foundation, Ariş keeps searching for more elegant, higher class and more innovative diamond jewellery while underlining the very different way of look. Ariş believing that continuous innovation is the indispensable element of being the leading name of the sector and remaining so. In every design created Ariş makes up the principle helping to expose yourself in a very different way of 'you'. Ariş thanks to the experience of over hundred years, exclusively designs diamond jewellery and presents to its customers with pride. The biggest share of Ariş's success comes right from its "customer satisfaction comes first" principle. A century-old brand Ariş Diamond expanding its sales network through out Europe, invites jewelry investors to win together. Ariş Diamond's Merchandising concept of 22 stores, wellapplied in the various cities of Turkey.

For thousands of years, gold products were made in our Anatolia. Although they often decorated women men also used them as Jewelry. It was always a sign of richness. It never lost its value. Even after hundreds of years, it is still a traditional pecuniary item. It has been a proof of holy matrimony on the fingers of women and men. We as Armada Jewelry we want to give it more momentum.

We want to prove that golden Jewelry is not a commodity that should not be feared. Give a nice piece of jewel which will always keep its value instead of a nice bouquet of flowers or a blouse on Mother's Day, Teacher's Day, Valentines day and other special occasions. Join us in this change as well, give a gift which its value will never disappear.

Armada that was established in 1990, carried out its first exportation in 1992.

Arpas exceeded its ability to produce innovative jewelry in stamping, tubing, hollow, electroforming, metal moldcasting, 3-dimensional casting and CNC based Technologies following year after year heavy investment in new technology. Yet we still believe that our most important investment has been on human resources. Thanks to our engineers and other Professional staff Arpas is the only jewelry brand in the world to produce in such diverse technologies. Arpas has a manufacturing capability of a vast range which is now over 500.000 styles inspired by world wide trend and unique designs created by its own designers, all available in 8, 9, 10, 14, 18, 21, 22 carat gold, silver and gold & silver mixed metal if requested. Operating in our new built factory in year 2013 at Esenyurt-Istanbul, sitting on a 28.000sq meter covered area with constantly expanding staff and with our technologic capabilities, we are proud to hold the first place in Europe

Assos is a brand that turns jewelry into fashion. Assos aims to popularize the “trendy jewelry” concept in Turkey, thus completely altering the position of jewelry. Breaking new ground with the exclusive themes and products it creates, Assos, with its product quality, after sale services and its sense of reliance, successfully meets the demands of its customers. The sense of interpretation in design and the workmanship quality in manufacturing phases are quite appreciable in Assos products, which are prepared carefully on the basis of making its wearer feel happier and more elegant. Assos, with its gracefully and modernly designed diamond, brilliant, gold, and silver jewelry and unique concepts, continues to offer alternatives to jewelry enthusiasts, suitable for their work and private environments. Incorporated within Altınbaş Holding, the Assos brand can be found in nearly 1000 sales points in 42 countries.

Bayramoğlu Jewelry was found in Elazığ, 1976, by İbrahim Alkan. After being trained on the manufacturing processes of jewelry sector since the age of 9, the son of now-deceased İbrahim Alkan, Hasan Alkan opened his second store after settling in the Esenler district of Istanbul, in 1986. With the experience he acquired from going into the sector at such a young age, he worked by himself for quite a while, managing his retail store while offering the products he handmade in a 30m2 store to the customers. By always offering high quality and accurate products, he managed to win the trust of his customers and extend his portfolio in a short period of time. Today, in his 200m2 store in Esenler and with his 20 strong personnel, he offers service to three quarters of the district. Aiming to carry his high quality service to other areas, he opened retail stores in Metroport Mall in 2008, Profilo Mall in 2010, and Espri Mall in 2012. With its foundations dating back to 1976, Bayramoğlu Jewelry commenced production in 2009, pursuing the decision of continuing its business also as a wholesaler company. The company manufactures and designs products in 14, 18, 21 and 22 carat groups. It offers service in several cities of Turkey, particularly in Istanbul. The company's production facilities are in accordance with and all products are guaranteed under TSI (Turkish Standards Institution) Standards. Catering to the needs of a wide range of both local and international consumers, Bayramoğlu Jewelry is constantly producing new model with it professional designers. It has become a pioneering brand in bracelet models. The company's main service concept is meeting the demands from its customers with new products and providing punctual delivery services. All activities of the company are constantly enhanced in accordance with the conditions of the quality management system. The biggest aim of the company is becoming one of the entrusted brands who shape the future of the sector...

Established in 1994 and joined Akgün Silver in 2008, Bezek Zincir ve Yarı Mamul brand has a capacity of 11 tons/year of processing precious metal aided by its superior technologic infrastructure. Manufacturing silver and gold chains and providing many alternatives in semi-finished products to precious jewelry producers, Bezek reflects its high-quality sense onto production in its giant manufacturing facility of 1400 m². Serving approx. 70 different countries through its vast professional team equipped with cutting edge technology, Bezek is a typical example of efficiency of Turkish jewelry processing when necessary confidence and technical facilities are provided. Adopting a sustainable advancement strategy and directing all its gains into investments, Bezek has significant export activities and profoundly alleviated the external dependency of Turkish jewelry manufacturers in the product groups of chain and semi-finished products.

CARAT

Gold (24k, 22k, 18k)

Known as the golden sons of Istanbul, Cevat Genc and Ugur Tas are two of the most creative minds to emerge from the myriad age-old goldsmithing ateliers of the Grand Bazaar. Cevat trained as a jeweler and learned the ins and outs of managing production and sales in a ten year period at the highly respected Hilat Jewelers. Ugur Tas was exposed at a young age to workshops that employed the finest craftsmen, and a love for the alchemy of goldsmithing took hold. He started

his own atelier in his early twenties and began creating masterworks of original ideas for some of the most prestigious jewelry shops and well to do clients in town. In 2010, the pair joined forces and launched their vision as Cevherun 24k. With Ugur as the master jeweler and Cevat in charge of production and sales the two quickly made a name for themselves as a contemporary brand inspired by the past with an arsenal of uniquely sculpted jewels.

Expanding to markets in Dubai and New York, they quickly saw the demand and appreciation for well designed and superbly crafted 24k gold jewelry on the world stage. A chance encounter in 2012 with New York based jewelry designer Nazly Botas, lead to a bi-continental collaboration to design, promote, and market the brand to an audience with a hunger for originality and meaning in the jewels they were after.

COSAR Silver Jewellery was established in 1965 in the heart of Istanbul. For nearly 50 years we have worked tirelessly on building an outstanding reputation in the jewellery design and manufacturing industry.

At COSAR we hold a firm belief that providing the best to our customers is the only path to success : we are proud to offer the combination of top quality, latest designs, competitive prices, responsibly sourced local materials, latest technological developments, excellent customer service and reliable production system operated by a team of over 100 exceptionally trained employees.

With our Assyrian heritage craftsmanship is at the heart of everything we do. We have successfully developed a small family-owned precious jewellery factory to become a leading silver jewellery manufacturer in Southern Europe with representations in Italy, Greece, UK and USA. Our legacy is reflected in the family values we have incorporated in the very structure of our business.

Our vision is to grow our business through continuous improvements and aspirations of putting our strongest efforts and emphasis on fulfilling our customers' needs.

Diva Jewellery, which combines the sense of innovation and originality with the experience and fund of knowledge in the jewelry sector, was established in 1998. It has made its name in a short time in the jewelry sector first in Anatolia and then all over Turkey by manufacturing the original ring designs in the early years. Subsequently, it has diversified its product range with designs of earrings, bracelets, mini sets and pearls.

Diva Jewellery, following the world trends actively, increased its production capacity in 2004 with the new facilities in Güneşli depending on the products it has developed through the harmonized use of design and technology. It has opened a store in 2006 in Cağaloğlu in order to bring together the consumers with its long-established productive and high quality original sense of design, and to offer a better service.

Making crucial progress in the recent years in the field of exports as well, Diva Jewellery is pressing forward to becoming a world brand. Diva Jewellery will continue to offer the collections it has created with its holistic quality system and technology to the domestic and foreign jewelry lovers by blending the accumulated centuries old cultural designs with the original designs of the present century.

Formation of the brand “Ediz Dereli” goes back to 1989. Starting in retail markets in southern shores of Turkey, it became a production base in 1997 at İstanbul Şerefhan.

A year that was vital for our branding, 1999, we also formed a new company named Universe Gem with Recep Akdoğan in a 3-people partnership, brand's customer base included American high society and Hollywood stars.

Working at emerald supplying for years, we entered the sapphire and ruby suppling when we opened our office in Thailand in 2003. We bought all of the shares at our 3-people partnership in 2005. Going for a big change, we started creating the brand ‘Ediz Dereli’ and we reached our goal in 2007 with a lot of success.

Today we continue our journey of reaching the largest companies in Turkey with the diamonds we supply. We are working very hard in order to reflect our success, knowledge and experience in colored stones on to wholesale diamonds.

Güneş Kuyumculuk has been established in 1952. Our company which has started its Samsun operation in the year of 1980, started to its manufacturing operation in 1986 by establishing the first bangle manufacturing facility in Black Sea Region in order to supply the customers' needs in most proper, competitive and innovative way according to market's requirements and technological developments.

As a result of blending its over 50 years experience and new developments it has been completed branding by establishing Amisos brand in 2009 with the aim of comforting customer's needs and as a new circle of continuous innovation and complete its collection with the bangles, wedding rings, 22 K design goods and 14 K products. Güneş Kuyumculuk has increased its trade operations not only in Samsun but also for the whole domestic market of Turkey for these product ranges.

Besides the retail and wholesale operations and current product range, in order to supply domestic demand and to serve world markets Güneş Kuyumculuk has established Elis brand in 2015 and with this brand it has adopted Italian design and fashion concept to its products. It has dedicated the whole new manufacturing facility that established in Istanbul Kuyumcukent to this product range.

At this point, Güneş Kuyumculuk offers hundreds of products which is stylish and unique than each other to all customers' taste.

CLASSIFICATION

Diamond jewelry, manufacturer,
retailer, exchange and gold, assay
office

Founded in 1989 by Cemalettin Şahin, FD GROUP gathers FAHRET EXCHANGE, exchange office in the Grand Bazaar performing wholesale gold and currency trade with jewelers, FD DIAMOND diamond stores in İstanbul's Grand Bazaar and Bandırma, FD DIAMOND manufacturing and wholesaling stores in İstanbul's Grand Bazaar, and KAMERGOLD, retail jewelry stores in Bandırma, under the same roof.

The Bandırma branch of Fahret Exchange has come into service as well. Continuously growing with its principled, innovative and fair working system, FD GROUP constantly breaks new ground with the activities it carries on in jewelry and ornaments sector, with the principle of unconditional customer satisfaction based on exceeding the expectation of the customer rather than merely responding them.

Despite that it has recently became active in manufacturing and wholesaling, FD GROUP has been rapidly increasing the number of associates in these fields, and continuing to put its name under a long running success story in the sector.

Gold and diamond jewelry, watch

Having stepped in to the Turkish jewelry sector and started manufacturing gold in 1976, with the workshop it established, our group today is one of the strongest golden and diamond jewelry manufacturers in Turkey, and takes pride in sharing with you, our honorable customers, the success it attained in the field of exports proven by the awards it received. Our group has founded the Alexandra Gold Company in 1985 to carry the 14 carat rose gold manufacturing to a top-tier sectoral level of standards.

With the advanced technology of the 21st century, Alexendra Gold, with years of experience, managed to become a well-known brand in CIS and Europe, and took moving forward on the path of becoming a world brand with its product range, quality of service and professional production as a mission. In the following years, our company continued to prioritize the customer satisfaction principle by extensively meeting the customer's requirements in the field of 14K and 18K green gold that was in high in demand in jewelry sector, and founded Stones Jewellry in 1996. Taking its name from the Greek goddess of sunlight, Hemera reflected the light in its name over its designs and products, and established the Hemera Factory in 1999. Currently, the manufacturing operations of our companies, Alexandra Gold and Stones Jewellry, are taking in place in the 3600 square meter factory, incorporating over 300 employees and a high technology equipment. Combining uniquely designed models with world trends and superior quality, Hemera exports its products over 30 countries in 5 different continents, and performs retail and wholesale trade at its store in İstanbul NuruosmaniyeVezirhan Street. In its factory in Topkapı, Hemera Jewelry combines its ability to manufacture, alongside with customized orders from customers, silver and 8C, 9C,10C, 14C, 18C, 21Cand 22C gold products, with the innovative ideas of its specialized team of designers, thus being able to respond different demands from different customers all across the globe. Without compromising quality, Hemera, with the experience acquired in manufacturing and wholesaling, and its professional and smiling personnel who strive to hold customer satisfaction at the highest at all times, continues its operations regarding domestic retail store chains, franchising, trade corners and online sales, to respond the demands of our valuable customers.

Diamond certification, education

In the world of fine jewellery and gemstones, the term Antwerp diamond heritage resonates with special meaning. It denotes precision, absolute integrity, experience and centuries of tradition, all of which are imperative qualities when handling the most precious of jewels: the diamond. For more than 500 years, the city of Antwerp has stood at the very centre of the diamond business, developing a level of skill, understanding and expertise that is without equal.

The first diamond bourse in Antwerp, the 'Diamantclub van Antwerpen', was established in 1893. Currently, there are 28 diamond bourses worldwide, 4 of which are located in Antwerp, making Belgium the only country in the world with this many bourses. Antwerp has always played an exemplary role in trading diamonds, setting the standard for the level of skill, quality and confidence that not only people in the industry, but also customers have come to expect. As a matter of fact, most other diamond bourses have based their structure on the Antwerp bourses, meaning that most stones that arrive in Antwerp from abroad adhere to our strict standards.

Nowadays, eighty percent of all rough diamonds in the world are handled in Antwerp, while fifty percent of all cut diamonds pass through Antwerp. It is no surprise that the highest international mark of approval for polished diamonds is the 'Cut in Antwerp' label.

Ranked as the first official gold refinery in the gold refineries list of Borsa İstanbul (former Istanbul Gold Exchange) and T.R. Undersecretariat of Treasury, Istanbul Gold Refinery Inc. has become a member of Dubai Gold Exchange, the center for gold in the Middle East, in 2007. In September 2011, the company made into the World's Best Refineries List (Good Delivery List) of The London Bullion Market Association (LMBA), and became a company that manufactures gold bars that can be safely traded in international markets, regardless of their weight and carat. Alongside with refining, the company also pioneered the sector by being the first company to produce Goldgram in Turkey. As the first refinery that produces 0.5, 1, 2.5, 5, 10, 20, 50 and 100 gram, Gram Gold branded gold bars, Istanbul Gold Refinery, with the intention of both popularizing IGR Gold Gram throughout the country, and accurately meeting the needs of the sector in Anatolia, decided to expand across Anatolia and started its retailing process. Alongside with its stores in Istanbul, Istanbul Gold Refinery has sales points in numerous cities such as Ankara, Samsun, Kahramanmaraş, and İzmir, with many more to come. By becoming accredited to TURKAK (Turkish Accreditation Agency), Istanbul Gold Refinery has become the first Turkish gold refinery to have a TS/EN ISO 17025 certified analysis laboratory. Istanbul Gold Refinery has offices in the USA, Spain, Germany and Dubai, and is able to offer, alongside with refining and laboratory analyses services, products such as Goldgram, Silvergram, gold bar, silver bar, silver and gold granules and platinum, with rapid service and top tier quality. IGR considerably contributes to the sector and the economy with its projects regarding Gold Banking, PTT Gold and ATM Gold. Istanbul Gold Refinery Inc. is carrying on its business operations with the aim of constant growth and holding a prominent rank in the international precious metals industry as an advancing company that enhances its solution partners, and conducts responsive operations to meet the sector's demands. Our Vision Our vision is to become a world renowned refinery and an international pioneer in the precious metals industry. IGR strives to perpetuate our reputation as dependable, innovative and devoted, while providing the highest quality services and products to our customers. Our Mission IGR has always considered environmental factors, health and quality to be of the utmost importance. High quality products are critical for the production chain. Providing services at the beginning and the end of the production chain with its professional crew, IGR is well aware of the importance of its position and operates accordingly, while taking customer and employee satisfaction into consideration.

24K Gold One of a Kind Hand-
made Designer Jewelry with,
diamonds, precious and semipre-
cious stones.

The jewelry pieces that are created with a great mastery being harmonized with art, culture, and tradition started to come to life at Kurtulan Jewellery which was established by Ismet Naci & Meltem Kurtulan couple as a family corporation at 1993.

While all processes from design to production and from sales to presentation are completed with the diligence of a craftsman, it is taken great care that each new collection definitely has the “Kurtulan” spirit and that the old and new collections produce and image of a whole in a certain harmony.

Kurtulan which combines its unique design concept with a strong quality perception will continue to put a smile on the faces of jewelry lovers with the pre sales and after sales services that it provides.

Kurtulan Jewellery crowned its unique models that it creates with the awards granted from many international contests:

One of the four designers whose designs were included in the book named Gold Inspiration Guide which was prepared by World Gold Council for Middle Eastern countries in 2010 was Meltem Kurtulan. Kurtulan had created a special design which she named “Magic Coin” within the scope of the project. Meltem Kurtulan reassured her success in 2012 by entering the Great Designer List compiled by World Gold Council which includes the 10 best designers from different countries of the world.

With the experience he gained from his first step into the sector with the family business in 1978, Mahmut Serbes opened his first store, under his own name, in Sakarya, in 1994.

After having his store taken away by the Adapazarı Earthquake of 1999, Mahmut Serbes devotedly continued his work and laid the foundations of his current leading store, then in a different region of Sakarya, and resumed his services on a new location.

Serbes went full retailby increasing his business volume and capital power and establishing Lizay brand. He closely followed the evolving trends and engaged in promotional activities for the brand.

Alongside with 4 different stores in Adapazarı, Lizay continues to add new links to its chains with its stores in Istanbul Maltepe, Viaport, BeylikdüzüPerlevista, EyüpVialand Mall, Mall of Istanbul, Nuruosmaniye, Kadıköy and Gebze. Having relocated its headquarters to Nuruosmaniye, Lizayperforms retail and wholesale of, alongside with precious gems and diamonds, 14 carat gold products.

Having recently opened its wholesale wedding ring marketing store in İzmir, the company is able to provide quick service to the sales points in the Aegean Region. Along with international fairs, Lizay offers its latest products to both domestic and international customers in Istanbul Jewellry Fair in March and October, and continues its operations in the jewelry sector.

Matjani is a powerful organization transfigured by Generation Y kids of deep rooted Matjani family. The company is born out of an aspiration to the highest standards in design, materials, manufacturing quality and after service. Every single pair of rings is crafted by the combination of high tech and craftsmanship at Matjani manufacture, to meet B2B customers who bring those genuine masterpieces and the end users together. The line from craftsmen to today's innovative technologies creates a new circle of jewelry that forges the precious materials for perfection that is beyond traditional understanding of jewelry market. What differentiates Matjani is that the innovative and revolutionary steps create new generation jewelry - M generation jewelry- where all casting including co-founders, executive manager, jewelry designers, smiths commit themselves to be there for the customers before they need anything, and when they need anything.

Having a wide range of wedding ring models produced by using 8K, 9K, 10K, 14K, 18K, 21K and 22K gold (with white, yellow and rose options) and platinum (with pt 900 and pt 600 options), Matjani casts pipes in different carats to produce unique wedding bands to our customers. Moreover, we presents proudly that we have one of the rarest product line which enables us to produce semi-hollow wedding rings from gold and even from platinum. Our experienced mining engineers have succeeded to formalize what allows us to cast pt 600 semi-hollow models without mixing palladium as an alloy while it is impossible for others in jewelry market.

Merrily whose foundations were laid in 1993 started to provide service in a small place of business in Mercan, Grand Bazaar. Taking the first step onward with 1 staff member in the most familiar area: wedding bands, Merrily started to produce green, white and red wedding bands in 1995. This type of production which was first for Merrily and a great innovation for the industry is one of the main reasons which played a key role in promoting the company to reach its current position. Ensuring continuous development in product models and qualities, Merrily has never given up following the momentum brought to them by change, and started to serve as a limited company with four partners in 1998. Achieving great success with its expanded production workshops along with its sales team reaching out into Anatolia, Merrily realized its first export transaction in 2000. In 2001, Merrily became the first company to bring in the German CNC robot technology, thus lifting its production quality and competitive strength up to world standards. Merrily that hallmarked innovations which have been followed up with great attention by miscellaneous wedding band and bracelet workshops played an important role in developing and increasing the export share of the industry. The company which relocated in its workshops in Kuyumcukent in 2005 has been continuing its operations with Merrily brand under the roof of "Özkan Group". Thanks to its ever developing company structure and organization, the company has started to develop 90% of its productions as tubular and seamless, and reinforced its industry leadership with the wholesale office opened in Duisburg, Germany in 2009. Today, Merrily storms toward its targets with its 500 square meter production area and 200 square meter wholesale and retail sale area with two main dealers is proud of serving its nearly 600 customers in total 6 countries with great enthusiasm.

The foundations of Milan Jewellery were laid in 1974 as a boutique atelier. Since then, Milan has climbed the steps of success thanks to a series of very successful jewellery collections. High quality precision craftsmanship led to Milan Jewellery rise, culminating in establishing a corporate identity in 1994 with the objective of introducing the brand to a broader client base. Consistent with this vision, our company started focusing on export activities in 2000. Today we export our products to dozens of countries in four continents.

Milan remains dedicated to deliver top quality products based on the know-how and experience stemming from a manufacturer identity. Milan is moving slowly but surely towards becoming a brand with a broad domestic and international customer portfolio. With our production headquarters in Vizyon Park and wholesale store in Nuruosmaniye, Istanbul we plan to maintain steady growth and reach masses.

At Milan Jewellery, we are capable of manufacturing from 10 to 18 carats. As a producer that regularly releases new collections and keeps a high degree of customer satisfaction we have become an example in the sector we work in. At Milan, we think of tomorrow rather than just focus on the present and this is our drive to reach new generations with the same approach.

Gold and Diamond Jewelry

The jewellery passion of Kamar family which starts at 1948 and continues for 3 generations, was transformed into Roberto Bravo brand by the vision of ex- panding to the world. Since the existence of human civilization, Italy has become the capital of haute couture. Painters, sculptors, musicians and poets have searched for inspiration under the shadow of the Luxurious Italian Soul. With the perspective of "The first step of becoming a global jewellery brand is to create a brand embraces that Soul", Roberto Bravo was commenced its activities in Arezzo town of Italy in 1998, which is the world's gold design and production center, then moved its office to Corso Palladio, Vicenza in 2008. The Company which operates in retail, production and export areas until 1997, started to attempt on the way of becoming a global brand. Roberto Bravo has a headquarter in İstanbul, 2 management offices in Vicenza and Moscow, has multiple designs and production facilities in Turkey, Italy and Korea. Today, the brand is setting worldwide jewellery trends through Contemporary Lines, High Technology, Extraordinary designs, Craftmanship Mastery, Ex- pressive Collections, Wide Range of Products; having many surprises inside, is full with aesthetic and mysterious lines. It offers daring and creative approach through extraordinary collections introduces jewellery enthusiast nous, fascinating and magic world of gold, diamond and enamel.

precious metals as gold, silver,
platinum, palladium, rhodium,
manufactures the products of
NadirGold, NadirGoldCoins;
grams gold, silver & platinum
products and the special
collection products.

In 1967, Nadir Tütüncü established his workshop within an area of 150 m2 to recycle jeweler dross. Beginning from 1975, he started precious metal refining for the market and the workshop increased in size limited to this field. In 1985, he established Nadir Trading and began to trade precious metals in Grand Bazaar. Then, Nadir Metal Rafineri San. ve Tic. Ltd. was established in 1993. Rapid increase in demand has forced the company on capacity investment. Thus, the first gold refinery in Turkey was built on the country's land.

In 1999, a partnership agreement with the German company Degussa Allgemeine was signed in exchange for technology "know-how" and thereby Nadir Allgemeine Ind.Trade.Co.Ltd. was established. In 2001, Nadir Family became the sole shareholder of the company which continued its operations under the name of Nadir Metal Rafineri San. ve Tic. Ltd. After the accretion agreement in 2001, all the infrastructural investments were completed within a year. In 2006, Nadir became a joint stock company with its new title: Nadir Metal Rafineri San ve Tic. A.Ş.

The company is accredited by Istanbul Gold Exchange (Borsa Istanbul) in January 2008, by Dubai Stock Exchange (DMCC) in October 2009 and by London Good Delivery Association (LBMA) in December 2011, as the first company in Turkey, in 2011 for gold and in 2012 for silver.

Today, along with refining, waste recycling, dross and laboratory services, Nadir Metal produces and trades precious metals (gold, silver, platinum, palladium, and rhodium). In addition to these, "Nadir Metal" and "Nadir Gold" branded small bars of gold, silver and platinum products and exclusive collections are produced.

Nusret Jewelry is one of the leading manufacturers and retailers in Istanbul Turkey. Since 1942 company serves the jewelry sector as an artistic jewelry school for designers, mass manufacturer and a retailer where jewelry lovers can find exceptional pieces to express their feelings. At 1982 Nusret Jewelry started exporting different types of jewelry to various markets, while the world is not familiar with Turkey's potential in Jewelry Sector. That was a valuable step for sector's future. Now company both operates in domestic and foreign markets mainly concentrating on 24k, 22k, 14k gold, high -end diamond and 925 sterling silver jewelry. Especially exporting jewelry to the countries like South America, North America, Germany, United Arab Emirates. The brand name "nusret" has been popular with its reliability and won prizes from many designing competitions including world gold councils. Also is the first design patent holder for jewelry with 128 designs in Turkey in the year of 1996. With almost 75 years of experience, along with manufacturing, exporting, retailer activities of gold and fine silver jewelry, company starts online retail and wholesales with the name 'nusrettaki'. It is a new generation, technological system for implementing new marketing & sales strategies in jewelry sector. By this e-commerce website "nusret" will be serving with different designs, competitive prices, high quality, fast service and guarantee for generations to come.

Our company was established in 1992.

From the beginning of our work, main principles of our company are honesty and high-quality production. By following this belief, we produce and export jewellery decoration and displays which is made by European standards.

Our company takes place among leading companies of Turkey in jewellery showcase decoration and design area and it is one of the few companies which continues to represent our country abroad and in international exhibitions.

Working with the leading companies of the Europe, Omeroglu Decoration exports its products to many countries in the world while it continues its business for wholesales and retail in domestic market.

Another leading point of our company is to have representatives in different countries. We keep opening new representatives for the companies which are willing to sell our products.

ON JEWELLERY

On Jewellery is company founded by a group of people having 35 years of experience in jewelry industry in 2000. On Jewellery increased its market share in a short period of time producing and placing market the right product in the right time.

One of the most important reasons of this rise is its employees working in the key positions of the company nevertheless official registration of the company was completed in the year 2000. It is the reason how On Jewellery achieved such a great development.

When we focus on the current situation of On Jewellery; it has 110 sales partners all over Turkey and it is one of the leading manufacturer and exporter company meeting requests and orders of the clients in time and complete manner which puts forward client satisfaction with regular services.

We guaranteed our diamonds' quality cooperating with Eurostar Diamond Traders N.V. which is a leading diamond wholesaler and manufacturer and achieved quality sustainability of the diamonds used.

When we look its international business, it serves its wholesale and retail clients with Dubai office and Moscow, Sochi and Kiev companies. We deliver our products to European Union member countries and other European countries quickly and safe manner through our Istanbul headquarters.

The company achieved 3rd rank in 2012 and 2nd rank in 2013 in Diamond Jewelry Export business in Turkey. It is an indispensable participant to international fairs every year.

Onsa Refinery, the share holding of Altınbaş, was established as a pilot scale plant in 2005 with the support of TTGV (Technology Development Foundation of Turkey) and then production has commenced to the degree of self-sufficiency. In 2006 the establishment of the plant that is operating now was occurred.

During the installation phase of the refinery, by examining the other refineries that are serving in European Union Countries, targets are defined as not only the quality of the product and service, but also working with environment friendly technologies. The plant which is structured accordingly, was founded in 2006 with its chemical refining and gas refining systems in order not to harm environment. Other than that, our plant has proven the given importance to quality, environment and work safety with its ISO 9001, ISO 14001 and OHSAS 18001 certificates.

Riva Gold was established in 1996 as a wholesaler and marketing company by new generation representatives of a family which have a century-long past in jewelry. Soon becoming widely known in this area both in Turkey and abroad, the company also started to provide service in the production area in 1999.

Having a rich range of products with its continuously updated product groups and designs, Riva produces products at high standard and quality with its superior production technologies. Though mainly focused on 14 carats, it can produce any products as 8, 9, 10, 14, 18, 21 and 22 carats.

Having determined to distribute 50% of its production in Turkey and 50% for export, the company can flexibly rearrange such rates depending on the economic conjuncture.

Using the state-of-the-art technology in its production processes and following up the latest trends in its design processes, the company continues to improve its momentum without compromising the quality. Closely following up all innovations with customer satisfaction principle, Riva is one of the leading companies that creates added value for Turkey, contributing to development of the industry and our country with an environmentally friendly approach.

All kinds of gold jewellery

Simya was founded in Dubai, Gold Centre Building in 1999, as a regional branch of Atasay Jewellery, Turkey's leading jeweller. Simya quickly became a frontier in establishing Turkish made jewellery all over Middle East markets. It served as a leading wholesaler in Dubai until late 2011.

Thanks to Turkey's rising position as a regional hub, by early 2016, Simya was re-formed again with the same vision, in Istanbul this time. For this purpose, company opened its new wholesale showroom in the prestigious Grand Bazaar. The new office is first of its kind in the sense that it keeps ready stock of 18K, 21K and 22K gold jewellery.

Simya's vision is to become the leading Turkish brand in Middle East and North Africa markets.

Found in 2005 to provide service in the fields manufacturing and wholesaling of solitaire, five-stone wedding rings and mountings, SinaMontür started its operations provinces including Istanbul, Ankara and Izmir, and then extended its portfolio to a respectable size throughout Turkey.

SinaMontür started its fair attendances with international fairs held in Istanbul back in 2006, increased its exporting potential by attending fairs at Mumbai, Dubai, Las Vegas, and Hong Kong in 2008, and reached the export figures it holds today. Having a wide customer portfolio especially in regions such as Middle East, Northern Africa and America, SinaMontür provides a product portfolio which is comprised of solitaires, five-stone rings and wedding ring mountings, along with fancy necklaces, earrings, small sets, grand sets, thin chained necklaces, clamp bracelets and filigree bracelets.

Having secured its place among the prominent companies of the sector in a short while, and started contributing to the national economy, SinaMontür's primary goal is to manufacture Turkey's best mountings and diamonds, and become one of the three most important exporters in the sector.

8K, 14K, 18K, 22K, 925 ag.

Som Altın Jewelry first stepped into the sector in 1975, Istanbul. The manufacturing activities first started by Hasan and EyüpÇetin brothers, in a humble jewelry workshop in İzmir, have today become a company that provides regular service to the entirety of Aegean, Marmara, Mediterranean, Black Sea, Central Anatolia regions and a part of Southeastern Anatolia, with four different teams. With its well-coordinated, young and dynamic personnel, Som Altın is steadily growing with each passing day. The primary aim of Som Altın is to increase its market share even more by focusing on customer satisfaction and high product quality. Moreover, Somaltın is the first company in the Aegean Region to receive the Certificate of Conformity to Turkish Standards. All kinds of bracelets and wedding rings are manufacturing in Somaltın's own workshops.

Alongside with jewelry, Som Altın also operates in textiles, tourism, finance, machinery and furnishing sector and locally and internationally employs tens of people.

Ayarman Family had entered into the Jewellery Business by opening their first retail shop in 1974. They incorporated the business by opening their factory in 1997. Since then the family escalated their efforts in production, retail sales and wholesale arena with the added energy and enthusiasm of its second generation. While wholesale business continued until 2005 within Turkey, the export efforts started after opening the Istanbul office the same year. They developed the export business by exhibiting in International Jewellery Exhibitions in Dubai, Moscow, Bangkok, Athens, Salonika and Munich. Through their office in Munich, Jewellery Stores in Germany, Austria, Netherlands and Belgium started to be served directly. Penetration into European Market continues with further efforts in France and Britain. In 2011 operations in Istanbul were expanded by opening a major shop in the historic Grand Bazaar. The wholesale operations within the whole Asian Side of Turkey started to be managed from this office. Tarz Alyans Company stated to manufacture jewellery in Bangkok after a joint venture with a Thai Company in 2009. Products imported from Thailand are also being sold throughout Turkey. The retail operations targeting the end users have been developing by opening five new sales points such as Nişantaşı Alyans Boutique and shops in İzmir, Istanbul, Ankara and Adana. Retail units are aimed to become a starting point for Engagement and Wedding shopping for jewellery items, by offering not only a wide range of choice in wedding rings category but also with its diamond solitaire, diamond band and full round diamond rings.

Trend Gold, is founded in the year 2000 with the goal of creating genuine designs, which combine zircon gemstones and semi-precious stones. Having quickly achieved a leading position in its field with its appreciation of quality and aesthetics, Trend Gold, has become the preferred brand for consumers. Trend Gold collections are designed with thorough studies by the Trend creative team and advanced computer aided model maker technologies are used in giving the designs their final shape. While the company mostly designs its collections in 14 and 18 carat gold, it produces in 8, 10 and 22 carats upon special demands. The company uses signity stones, semi-precious stones (Garnet, Blue Topaz, Amethyst, Citrine), and pearls in its collections, which are offered to many consumers in different countries. Trend Gold aims to sustain its leading position in the market and become a strongly preferred brand in the International market as well as in the Turkish. With this scope, Trend Gold follows technological developments and continues to invest in the field.

Zen, with its expertise in diamond, different designs, credibility and post-sale services is the first address to get a special, enchanting present; diamond for you and your loved ones.

Leader in diamond sector for Turkey, Zen takes on the legacy of a family with experience in jewelry since 1890 adding innovative aspects, creating modern designs and collections.

Having the largest production capacity in all over Europe, with this power Zen presents you the largest model selection in Turkey, satisfying different expectations and budgets. Collections including classics like solitaire, tria, diamond wedding rings, also involves countless models where diamond meets colorful stones, pieces that can accompany a woman's every moment from day to night. Zen Diamond also presents different models for men including diamond accessories like watches & ties, pens, wallets, belts and cufflinks.

Zen Diamond makes a difference with its special collections. After the agreement with National Geographic Society, being the one and only licensed jeweler in the world, brand created a collection named 'National Geographic Collection' sold all around the globe. De Beers Group's diamond brand, Forevermark forms partnerships with jewelers based on its high standards all over the world. Zen Diamond is the only brand of Authorized Jeweler for Forevermark. Zen diamond is the leader of exports in jewelry with diamonds for the past 8 years. Every year participating in the most important jewelry shows all around the globe, Zen carries its name to international area. With its international offices, Zen Diamond keeps up with the latest trends and reflects the latest fashion to its designs. Aiming for accessibility with the largest sales network, Zen currently has 53 stores and 50 corner stores with constantly enlarging numbers.
